

SyberLearning OnDemand™

Sybase training—always available, when and where you need it!

SyberLearning OnDemand is intense, comprehensive, always available, technical training from Sybase—delivered to you as a complete class, and presented by our very own Certified Sybase Instructors. This outstanding offering provides you with a self-paced training solution, complete with printed course materials, pre and post assessments for each Unit, and recorded Lab Solutions. With SyberLearning OnDemand, you choose when, where, and what you want to learn. Create an information edge for yourself and your company—through measurable skills improvement using SyberLearning OnDemand.

Visit <http://www.sybase.com/support/education/syberlearningondemand> for a complete listing of SyberLearning OnDemand offerings.

LICENSE OPTIONS

Individual OnDemand

Choose the training you need by purchasing a SyberLearning OnDemand license from the list of available OnDemand courses. Not only can you control where and when you access Sybase training, but you'll get a printed copy of the student manual and access to review the lectures and lab solutions.

Enterprise OnDemand

Organizations will see additional cost savings when purchasing 6 or more copies on a SyberLearning OnDemand order. Additional OnDemand courses may be available from our Enterprise OnDemand course list. Contact your Education Representative for pricing and availability.

TEST DRIVE SYBERLEARNING ONDEMAND

See SyberLearning OnDemand in action by taking a Test Drive of several courses from various Sybase product groups:

- Adaptive Server® Enterprise
- Replication Server®
- PowerBuilder®
- PowerDesigner®
- Sybase IQ
- InfoMaker®
- Logical Data Modeling

All test drive modules are active, but with abbreviated module and lab solution recordings. Pre-Post Assessments are limited to 2 questions each. Progress reporting is limited to a sample report. Once you test drive SyberLearning OnDemand, we know you'll want more...

SYBERLEARNING ONDEMAND @ A GLANCE

- Navigate the course tree
- Launch your recorded lecture and lab solutions
- Take a pre/post-assessment before and after each unit
- View your progress

The screenshot displays the SyberLearning OnDemand interface. On the left, a course tree for 'ADVANCED DATA MODELING USING POWERDESIGNER 12' is visible, showing units from Introduction to Administering PowerDesigner. The main area shows a video player with the title 'Extended Model Definition Overview'. The video content includes a diagram illustrating the relationship between Object Models (Class_A, Class_B, Class_C, Sub-ClassA, Object_5) and Phys Datamodel (Table_A, Table_B, Table_C) through Generic Profile and Business Rules (Attribute_A, Attribute_B). Below the video, a 'COURSE PROGRESS REPORT' table shows the completion status for various modules and labs.

Module/Lab	Progress	Score	Completion Date
UNIT 0: INTRODUCTION			01/01/2029
UNIT 1 - POWERDESIGNER AND THE ENTERPRISE			01/01/2029
UNIT 2 - UNDERSTANDING GTL AND THE METAMODEL			01/01/2029
UNIT 3 - CUSTOMIZING THE POWERDESIGNER INTERFACES			01/01/2029
Unit 3 - Pre Assessment	0%	999998	
Module 7: Working with Profiles and Extended Model Definitions		999995	
Lab 7-1: Creating an Extended Model Definition		999997	
Module 8: Managing Language Files		999993	
Lab 8-1: Modifying an XDB File		999994	
Module 9: Advanced Customizations			
Lab 9-1: Advanced Customizations			
Unit 3 - Post Assessment			
UNIT 4 - ADMINISTERING POWERDESIGNER AND THE
